

Riverside Recovery Resources

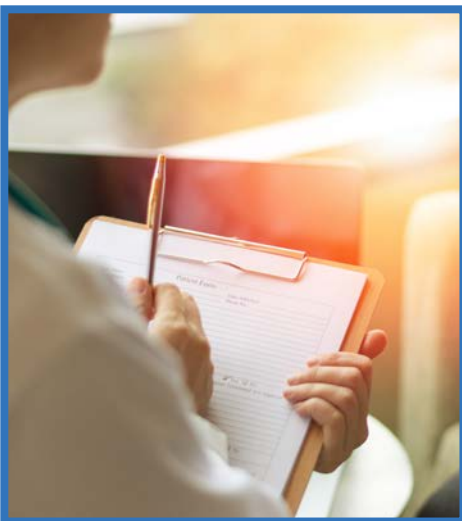

“Project Clean Start”

Riverside Recovery Resources is a 501(c)(3) non-profit. We have been restoring the lives of individuals since 1985. We offer DUI Programs, Outpatient Counseling, and Intensive Outpatient Counseling.

We believe that anyone with the willingness and determination, paired with the right treatment program, deserves a clean start. They deserve to live the life they were always meant to have. We strive to make our classes affordable, yet, there are many members of our community who can't afford the treatment they so desperately need. To provide funding, we have created “Project Clean Start” to raise funds for Outpatient and Intensive Outpatient Counseling.

Our Treatment program is based on the 12-step, 12-traditions model for recovery, including anger and grief management. Each personalized plan for recovery also includes comprehensive aftercare to cope with life's inevitable challenges. We are there to help our graduates lead and live a productive life.

Will you help us help a member of our community in need get a clean start? All donations and contributions are tax deductible. Please consider making a donation today, or calling to learn more.

“God’s mercy and grace gave me hope - for myself, and for our world.” -Billy Graham
